

Liability Insurance Resources

All family child care providers should consider purchasing professional business liability insurance to protect themselves against the risk of caring for children in their home. You can obtain child care liability coverage 2 ways, through “Riders” on home owner or renter’s insurance policies or separate policies. Riders can cost less but often may restrict the number of children served, liability limits or coverage of abuse/neglect. A separate policy may offer you more choices to suit your business needs.
